

Town Council Strike Rate of Thirty Mills For Current Year

There was only a short discussion at the special meeting of the Town Council on Friday when the main event of the evening was brought before the members, and after having considered everything the rate for the current taxes was struck at 30 mills.

The matter of the ownership of the land at the cemetery

was gone into pretty thoroughly, and it was finally decided that as the land in question would come up for sale in the forthcoming sale of school lands, the council would take action at once and make application to the powers that be, to purchase the same for cemetery purposes, and thus dispose of this question for all time.

GREATER LOSSES BY FIRE ANNUALLY THAN WAR COSTS

In war time, and while many interests are urging thrift and economy, the Canadian people are burning up their created resources at a much greater rate this year than last.

During the first five months of 1916, the fire loss of Canada exceeded that of January to May 1915, by approximately \$3,000,000, or 600,000 per month. At this rate of increase, our fire loss will exceed that of 1915 by 7,200,000.

Canada has need of all her financial resources. She is borrowing money to carry on the war, and is paying 5 per cent interest thereon. The additional fire loss of 1916 would therefore pay the interest charge on the recent war loan of \$100,000,000 and would pay 2,200,000 of the principal. Canada's average annual fire loss, of over \$23,000,000, would pay 5 per cent interest on approximately half a billion dollars. Our fire loss is, however, something for which we are receiving no value, either financial or patriotic; it is simply a tax, due in great part to carelessness, which Canadians appear willing to pay, and which they, as a whole, are doing little to avert.

MISS BOURBEAU PASSES AWAY AT GILT EDGE

The death took place at Gilt Edge on July 17th of Miss Leonie Bourbeau, who for some time has been living in that district with her brother-in-law Ed Garneau. The deceased lady was 63 years of age, and death was from old age. The funeral took place on Wednesday last, the arrangements being in the hands of Small's undertaking parlors.

TELEGRAPHERS EXEMPT

Operators Not to be Enlisted—Scarce in Canada Now
CAMP HUGHES, Man., July 24.—Officers commanding units and all recruiting officers have been instructed not to enlist cable operators, wireless telegraph operators without the consent of militia headquarters. This matter, the notification says, is of the greatest importance owing to the increasing scarcity in Canada of experienced men for this work.

FLOUR MILL IS BURNED

Destructive Fire Occurs at Salt Coats, Saskatchewan
SALT COATS, Sask., July 24.—A destructive fire broke out about five o'clock Saturday morning in the Salt Coats Flour Milling company's premises, the flour mill and elevator being entirely destroyed. There was 10,000 bushels of wheat in the elevator. The mill was stocked with flour. The damage is estimated around \$10,000, covered by insurance. The origin of the fire is unknown.

SCHOOL BYLAWS PASS

REGINA, July 24.—Two school bylaws submitted to the ratepayers here Friday passed without much opposition. The vote was very light, only 117 ratepayers going to the polls out of 9,883 on the list. The cost of the election was \$3 a vote.

REBEKAH SOCIAL

Tomorrow evening at 8, the local Rebekah lodge are holding a lawn social at the residence of Mrs. Norman Fenby, and the public are invited to make it a point to attend.

Refreshments will be served, and the band and other attractions are being arranged for, so come right along.

METHODIST L. A. HOLD SUCCESSFUL COOKING SALE

On Saturday afternoon The Annex was a pretty busy place when the Ladies Aid of Grace Methodist church held another very successful home cooking sale. These affairs are proving very popular, and last Saturday's function was no exception to the rule.

The returns from the gathering must have proved a source of gratification to all the ladies who worked so hard for the ultimate result, and the aid fund will profit to the extent of about \$10.

CHILDREN UNDER 12 EXEMPT FROM THEATRE TAXATION

An order in council has been passed which is of peculiar interest to children of the age of twelve years and under, who are afflicted with the moving picture craze. Children within this age limit are exempt from payment under the theatre goers' Taxations Act, on Saturdays.

John D. Hunt, clerk of the executive council, announces in the latest issue of the Alberta Gazette that, "his honor the lieutenant governor, by and with the advice of the executive council, has been pleased to order that children of twelve years of age and under be exempt from payment of the tax under the Theatre Goers Taxations act, on Saturday."

LOCAL NOTES

Mrs. C. J. Mitchell and family are spending their holidays with relatives and friends in Edmonton (South side).

Don't miss that lawn social which is being given tomorrow evening at the residence of Mrs. Norman Fenby. The band will be there, too!

Another recruit to the ranks of Ford owners has appeared this week in the person of C. A. Walton, of Gilt Edge, who purchased a car last week end from O. J. Elder.

F. Small is away to Regina on business this week. He is accompanied by Mrs. Small who will journey on to spend a visit with relatives at Kenora, Ont.

The Court of Confirmation of the tax enforcement roll of the town of Wainwright will be held in the Council chamber on September 13th next before His Honor Judge Crawford.

The Unity Courier which has been conducting an advertising campaign for "Patriotism and Protection" does not seem to appear to have made a very deep impression upon the officials of their local agricultural society, judging by the fact that the printing for the annual fair in Newport, Kentucky.

WINNIPEG, July 24.—Rain, hail and lightning last Saturday night, destroyed the \$2,000 poultry building at the Agricultural college, killed 150 pure bred hens, and destroyed large sections of crops throughout the province. In Winnipeg and district the storm was exceptionally severe.

EXCURSION TO GOVT. SCHOOL OF AGRICULTURE

The Provincial Department of Agriculture has just completed arrangements with the various Railway companies for a three days excursion to the Schools of Agriculture, when a most interesting and instructive programme will be given by the Staffs representing the Schools and the Department of Agriculture. The dates for the visit to Vermilion are Monday Tuesday and Wednesday, July 31 to August 2nd, and single fare rates have been arranged for on the convention plan viz:—

Passengers will purchase one way tickets from any station and by any train to Vermilion, taking a standard Certificate Receipt from the ticket agent.

An Official at the School at Vermilion will sign this receipt and said receipt can then be exchanged at the station for a regular ticket good for the return journey. The programme will include the following:—Judging, feeding, and care of live stock. Diseases of crops and their treatment. Study of crops and cultural methods. Identifications of weeds and weed seed. Barn plans suitable for Alberta. The farm gasoline engine. Farm poultry problems. Farm dairying. Household Science, including cooking, canning, sewing, laundering and home nursing.

It is hoped there may be a large attendance as a splendid opportunity will be given for seeing the complete operations of the school and experimental plots. Visitors can remain during the whole of the days or any portion thereof. For further particulars address, Alex. Galbraith, agent of fairs and Institutes, or the Hon. Duncan Marshall, Minister of Agriculture.

CANADIAN CITY SUFFERS FROM INFANT PLAGUE

QUEBEC, July 24.—Infant mortality in Quebec has reached alarming proportions since the beginning of the present month. Statistics show that ninety-eight children have died in the city since July 1st and the tide of death seems to be gradually increasing. Yesterday their train of white hearsees to the cemeteries told the dismal tale of what is occurring in many Quebec families at the present time. Nineteen children were buried yesterday afternoon and twelve more today. This unusual number of deaths is attributed to the excessive heat.

ST. PAUL, July 24.—Fifty-five acute cases of infantile paralysis are in quarantine in Minnesota today, five new cases having been reached Sunday and early today, according to Dr. A. J. Chesley, of the state division of preventable diseases.

Minneapolis has twenty-five and St. Paul ten of the cases.

NEW YORK, July 24.—Another gain in the number of fatalities and decrease in the number of new cases was reported by the health department today when the epidemic infantile paralysis entered its fifth week. During the twenty-four hours ending at 10 a.m. today there were thirty-one deaths and eighty-nine new cases reported in the greater city as against twenty-three deaths and 115 new cases during the corresponding period yesterday.

KAISER MOVES LOCATION

BERLIN, via London, July 24.—Emperor William, who was officially announced today, has moved from the western to the eastern theatre of the war, accompanied by the chief of the general staff, of the army in the field.

Owing to the fact that a public appeal is being made for six for our boys at the front, the local chapter of the Daughters of the Empire are announcing that some of them will be at The Annex on Saturday afternoon, July 29th for the purpose of receiving all six which are then completed, or their equivalent in money.

LARGEST ON RECORD

What proved to be the largest wool sale on record in Canada was held at Lethbridge July 19, when over 600,000 pounds of graded wool was offered. Bidders from Chicago, Boston and other big centres attended. This was the clip from 3,000 sheep of the Southern Alberta Wool Growers' association.

ST THOMAS' SUNDAY SCHOOL-HOLD ANNUAL PICNIC AT CLEAR LAKE

After a postponement from the previous day on account of the weather, the members of the Anglican Sunday school journeyed to Clear Lake on Thursday last for their annual picnic, and a pleasant time was spent by a large number of scholars and friends.

Just a little rain fell during the afternoon, but despite this, the kiddies all had a good time with games and sports, in addition the water also proved a great attraction to young and old alike.

PRESENTATION TO VICE-PRESIDENT OF BOARD OF TRADE

The usual routine business of the Board of Trade was conducted last Wednesday evening with the president in the chair.

One of the pleasant features of the meeting was the presentation to the Vice-president of the Board on the occasion of his recent marriage, the gift taking the form of a silver butter-cup.

In accepting the gift on behalf of his good lady and himself, the recipient in a few words gratefully acknowledged the good wishes thus expressed by the executive members of the organization.

CHURCH NOTES

Prof. Barnard of Robertson College will be the speaker next Sunday at the Union Services to be held in the Methodist Church at 11 a.m. and the Presbyterian Church at 7.30 p.m. All are cordially invited.

In St. Thomas (Anglican) Church on Sunday next, the Sunday School will meet at 11 o'clock in the morning; there will be Public Worship in the evening at 7.30, when the subject of the sermon will be the well known hymn—"Abide with me."

The Sacrament of the Lord's Supper will be administered at the evening service.

On Wednesday evening at 7.45 the Union Bible Class will be held, conducted by Rev. H. Assiter, to which members of all churches are invited.

On Thursday Evening at 7.30 the Litany of Intercession for Soldiers and Sailors, of the King and Empire.

Mrs. Price is a visitor to Edmonton for a few days.

Theo. Carbert, who was in town for a few days last week on business has returned to the city.

Several of our farmers are out of town today attending the big G. G. A. picnic at Biggar.

Mrs. O. Rogers and Miss N. Isted were visitors to the city last week end for a trip.

Judging from appearances the grass widows in town these days are not finding bathing any too pleasant an occupation. They have our sympathies, too!

The "Star" Has The Courage Of Its Convictions

There is no doubt that the authorities are enforcing the Liquor Act very strictly, and also there is no doubt that the new condition is a wonderful improvement upon the old. At the Calgary and Edmonton fairs where great crowds congregated for a week apiece there was absolutely no evidence to show that liquor existed in the province.

The police cells have never been so empty in the history of the province. Hotel accommodation, as far as can be learned, is better than it was before, and it is a great relief to be delivered from the embraces of people in a state of intoxication.

In spite of all these facts, there will gradually come into being divers ways and means of attempting to defeat the purpose of the Act. There has not yet been time for plans to be perfected, but we all feel sure that various schemes will be worked out as time goes on. Every good citizen, and every body who supported the Liquor Act, is responsible for his share in enforcing it, and the success or failure of the Act will depend more than anything else upon the attitude of the general public toward it.

It is from this standpoint that "The Star" has this week refused to print advertisements from a wholesale liquor firm in Regina that wants to ship liquor into Alberta. The offer of business came through the Western Advertising Agency in Regina, and the rates offered are twice as high as our regular rates and the cash is offered in advance. Not only that, but the bait is made still more attractive by an offer "to turn a lot of work your way."

The "Star" believes that the overwhelming weight of public opinion in Alberta is in favor of real prohibition, and that the intention of the Liquor Act

was to bring about that condition. If this is true, no newspaper can be justified in encouraging any liquor traffic that is sure to result in gross abuses under the Act, and for this reason "The Star" has refused the advertising business of these people, and will try to do its part to observe the spirit as well as the letter of the law.

PHOTOGRAPHERS ARE AT LAST SUCCESSFUL

One of the ambitions of most photographers in this part of the world is to secure pictures taken from the little ship, "The Maid of the Mist," which goes right up to the foot of the Canadian Horseshoe Falls at Niagara. Many have attempted this feat, but none have been entirely successful up to the present time.

Undaunted by others' failures in the past, the moving picture department of the Canadian Ford Motor Company resolved that they would secure motion pictures of this wonderful spectacle, if it were humanly possible to do it, and the result surpassed their fondest expectations.

The camera man from this company donned the oilskins worn by all travellers who take this hazardous trip and mounted his camera on the forward deck of the boat. At first, pictures were easy but as the little craft drew nearer to the Falls the mist became more and more dense and it was necessary to retire frequently to the pilot house to wipe off the lens of the camera. Despite the difficulties, pictures were secured right at the base of the Falls. The spectator can see the huge clouds of mist rising from the foaming water, and gazing aloft as though actually present at the taking of the picture sees the huge catenars of water hurrying over the brink.

Many Canadians have seen this great natural wonder of their remarkable country, but their is a large majority who have never had this good fortune. To them is given the opportunity of seeing pictures of the most beautiful aspect of the Falls from an angle that even the usual visitor to the Falls falls to secure.

These pictures are part of the current release of the Ford Canadian Monthly film of Topical Events which is now being shown throughout the Dominion in most of the motion picture theaters. Each release of this film shows some of the picturesque spots and happenings in Canada.

MADE SUSSEX DESCENT

Engine in Miss Stinson's Aeroplane Stopped During Flight

CAMP HUGHES, Man., July 24.—Miss Stinson, aviator, who Saturday made several exhibition aerobline flights over Camp Hughes, was forced to make a sudden descent to the ground when just beyond Douglas on the return trip to Brandon. Her engine stopped and, volplaning to earth, she managed to land without injury to herself, beyond the necessarily severe shaking up, but damaged her aeroplane. Her forced descent to earth was seen from the camp, and two of the big motor lorries, with mechanics, were sent out to assist her, and a car to take her into Brandon. The machine was not badly damaged, and it is expected it will be ready for use at Regina.

DUTCH STEAMER SINKS

THE HAGUE, via London, July 24.—The Dutch steamship Mary has been sunk near the north Hinder light as the result of striking a mine. Ten members of the vessel's crew were drowned.

WORKERS FROM BIG FACTORIES MAY COME WEST

WINNIPEG, July 24.—At a conference of representatives of Immigration departments in the west and officials of the railways, held here this morning, it was announced that if the supply of harvest hands fell short of the number required, appeal would be made to large factories in the east to release men to fill the shortage of labor.

The number of men required in Manitoba, Saskatchewan and Alberta is estimated at 15,000, 20,000 and 10,000 respectively. Cutting should be getting in Manitoba by August fifteenth; in Saskatchewan and Alberta between August twentieth and twenty-fifth. The rates and time limits of tickets from the east probably will be the same as last year. Excursions from eastern points will begin about August fifteenth.

A rate of one cent a mile, minimum \$1.50 will be established from Winnipeg to points in Manitoba; from Regina, Saskatoon and Moose Jaw to points in Saskatchewan and from Calgary, Lethbridge and Edmonton to points in Alberta. Wages to harvest hands, it is believed, will range from \$2.50 to \$3.00 a day with board.

Whitcomb Riley, Poet, Passes Away

INDIANAPOLIS, Ind., July 24.—James Whitcomb Riley died at 10:15 a.m. Saturday at his home here. He had asked for a drink of water and reclined on his bed again. Miss Clemencia Prout, the nurse, examined him, and finding that he seemed not to be feeling easily approached his bed. Mr. Riley died before she reached his side.

Mr. Riley's death was due to paralysis. He suffered a violent stroke about 7:30 o'clock Saturday morning and the members of his household were summoned immediately. Mr. Riley suffered his first violent attack of paralysis July 19, 1910.

Information was given to the public that Mr. Riley was in no danger, but within a few hours he was dead. Members of Mr. Riley's family were summoned immediately. Mr. Riley suffered his first violent attack of paralysis July 19, 1910.

WRITE TO THE SOLDIER BOYS AT CAMP

WHEN THE BOYS who are in camp at Sarcee left home the parting pang they experienced, where more or less severe, but they were held up by the excitement of getting away and the patriotic ardor of their friends gave them. The first days in camp had the interest of new surroundings and duties of the "shaking down" process. They had no time to become homesick or to devote to any form of the blues.

But now the send-off memory and the novelty of their new situation and duties has worn away. Try as hard as they will, thoughts of comfortable beds, the well-appointed meals, the clean, fresh clothing, and the personal liberty they enjoyed at home are bound to crowd upon them. And the longing to see the loved ones, the friend and associates of the office and shop, will intrude upon them in spite of all they can do to keep it banished.

Just now the boys in camp are anticipating and watching for letters from home and friends with an eagerness and hunger of heart that those who write them can have no full conception of, however sympathetic they may be. That hunger and longing will increase rather than diminish as time goes on. The relatives and friends back home found it easy to write letters at first, but often letter writing becomesirksome when there are other things more pressing necessary to be done. It is a duty easy to put off when the newspapers, every day, devote columns to telling about what is going on in camp.

If you have a friend or relative, or only a fellow worker in Sarcee camp, don't forget to write to him often and keep up the practice all the time he is away, whether he goes to the front or not. Not only does he deserve it, but you are thereby helping him and through him the country, and are so strengthening ties of blood and friendship that nothing in the future can break them.

This applies with equal force to the boys who are now in actual conflict, as well as those who are training in England. Again we say Write To The Soldiers.

HOSPITAL MOST NECESSARY ADJUNCT TO PROGRESSIVE TOWN

THE PIONEER WOMEN deserve a monument. They are worthy of the highest tribute we can give them; but let it not be a bare pillow of marble, which brings no shelter, or warmth, or comfort to man or beast; in which no little bird can build its nest; no tired dog rest in its shade. The monument we can build to the pioneer women is to institute a system of rural nursing, which will bring help and companionship to these women in their hour of need. The men and women who go to the far places and cultivate the land there, make wealth for all of us. Why should Governments hesitate to spend money to make their conditions tolerable, and their lives secure?

There is another plan applicable to the more populated districts. It is to establish in Alberta a system of nursing as free and accessible as education in the public schools, and to do this by building hospitals, staffed by trained nurses of the highest qualifications, and maintained by a land tax on the municipalities which they serve. At Lloydminster, situated on the Alberta-Saskatchewan boundary, there is such a hospital, and it is on a paying basis. It is maintained by a tax of eleven cents an acre and those who require service receive it free. It seems quite, fitting that the well and strong should help to pay the expenses of those who are sick. It works so satisfactorily in this instance that other Municipalities are endeavoring to follow this example.

The whole scheme involves an insignificant outlay of money compared with what the rural population pay for medical care, and inefficient nursing.

Our whole attitude toward the bringing of children into the world has been vague and dreamy. We have left everything to all-wise Providence, shirking our own responsibility in that way. If everything went right and the woman was able to battle successfully with her unfavorable condition we joyously said: "God bless her!" But it something went wrong, and she fought a losing battle, we piously said: "Thy will be done—the Lord gave and the Lord hath taken away!"

DISEASES OF POTATOES DEALT WITH IN BULLETIN

A TIMELY BULLETIN issued by the Division of Botany, Central Experimental Farm, Ottawa, deals with late blight and rot of potatoes. Paul A. Murphy, assistant Plant Pathologist at Charlottetown, P. E. I., is the author of the Bulletin, which is entitled Circular No. 10, can be had free on application to the Publications Branch, Department of Agriculture, Ottawa. Both the Director of the Dominion Experimental Farms and the Dominion Botanist agree that the subject is most important, as late blight has caused incalculable losses, but that those losses can be reduced to a minimum by thorough and timely spraying with Bordeaux mixture. Mr. Murphy describes the symptoms very fully. Early blight is prevalent in July and the spots which it causes are characteristically dry, brown, and marked with a series of concentric rings. Late blight makes its appearance in August and September as a rule, although it is always present before it is generally noticed. The first spots, which are usually on the lower leaves or stems are dark brown to purple-black in colour, some times surrounded by a ring of light green and they have a water-soaked appearance. In fine weather or they increase in size and number and may involve the whole plant. An infected tuber is characterized by lurid-coloured slightly shrunken areas on the surface that are abnormally hard. Mr. Murphy says that the losses from the diseases are incalculable and that in the United States some time ago they were placed in value at \$36,000,000 a year. In 1915 it is estimated that the loss to Prince Edward Island alone was

not less than \$1,000,000 representing 3,000,000 bushels. The damage all over Eastern Canada was about on the same scale. Methods of control by spraying are detailed and the prescription for making the Bordeaux mixture given. The stocking of solution of copper sulphate and milk of lime if advised. Poison for the Colorado beetle can be applied with the Bordeaux as often as necessary. For this, either Paris green or arsenate of lead, or a combination of both may be used, half a pound of the former and a pound and a half of the latter to 40 gallons of spray being sufficient. In very severe cases the quantities of the poison can be increased by half.

WAREHOUSE, FACTORY, WHICH SHALL IT BE?

Every Western City and Town interested in This Question—Development of Communities

"Country Life in Canada," a farm journal published in Winnipeg, had an interesting article in a recent issue under the above heading. We quote the first three paragraphs which serve to put before the citizens of Western Canada, particularly those residing in our larger cities and towns, the clear cut distinction between the building up of a manufacturing centre and a purely distributing centre.

There is a certain comparison which can be made between a city or town and a commercial enterprise. A city must be one of two things in the wider aspect. It is either a manufacturing centre or a glorified distributing point. Did you ever compare a factory with a warehouse? In the factory, close-packed machines or semi-automatic machinery. But let us leave the busy factory and enter a distributing warehouse. Here far fewer workers are in evidence; goods are received in crates and are repacked in smaller crates for transportation, or are stored by the efforts of one or two men with trucks. A shipper and a few helpers compose the staff; it is a case of only handling finished goods instead of manufacturing goods from the raw material.

How to Transform Cities, therefore, because either manufacturing plants or distributing warehouses, and the city or town which develops its manufacturing resources is the centre that goes ahead, in wealth, in population and service to the adjacent territory. No city will willingly become a warehouse, that is a distributing centre, but modern developments and the action of the consumer may tend to diminish manufacturing and reduce population, at the same time reducing the market for the agricultural production of the surrounding territory. Purchasing imported goods received in bulk by direct selling organizations are direct means of transforming manufacturing centres into mere distributing points.

In the boom days in Western Canada the whole thought of Western Canadians was expansion. Little care was taken to inquire whether the expansion was on sound economic lines, or merely a hasty development. If we are to build permanently in the West we must develop well rounded communities in which there are busy factories which can afford congenial employment at fair wages; a substantial element of our population.

Uniform Development We must not put all our eggs in one basket, as has been too much the tendency in the past. Better a slow but symmetrical development than an abnormal growth along certain lines. Canada's national policy for forty years has been to aim at a uniform development of all the resources of our country. Just as it would be a fatal mistake to establish industries in the country by placing a prohibitive customs tariff against the products they make coming into Canada, so Western Canadians should consider carefully whether they would not be in danger of injuring industries which are well settled in the country, by exposing them to the untrammelled competition of foreign producers, whose longer experience and larger output give them an undue advantage. What Canadian manufacturers do to the country by placing a policy which will reserve the producing forces in agriculture as well as in manufacturing. The results of such a policy will be seen in well rounded communities, set down in fertile agricultural areas.

Avoid the Soup Line Germany can deliver in Chicago, paid, for 40 cents an article costing 30 to 50 cents in a Cincinnati factory, a German woman can do for 15 cents the same work for which an Englishman is paid \$2.50; yet free trade invites them to rush in their cheap foreign labor products and let the American workman take his place in the soup line. Is it fair?

Money Stays at Home A protective tariff keeps our own people employed, and the money remains in circulation at home, where we have another chance to handle it. Under free trade it goes into foreign producers' pockets, and both the labor and the money are out of reach.

Right Sort of Growth While an increase in the number of persons who till the soil will not increase the value of a bushel of corn, increasing the factories increases the number of consumers who demand the bushel of corn.

Don't permit rubbish, paper or greasy rags to accumulate. Don't fill an oil or gasoline stove after dark, nor do so while the stove is lighted, as the flame might set fire to the vapor in the air, causing an explosion.

PUBLIC NOTICE

In the matter of Court of Confirmation of the Tax Enforcement Return of the Rural Municipality of Vale No. 392. TAKE NOTICE that His Honor Judge Clarence Taylor, Judge of the District Court of the district of Edmonton, Alberta, has appointed Tuesday the 10th day of September, 1916, at the hour of 1:30 o'clock in the afternoon at the Town of Wainwright, Alberta, as the time and place of the holding of the Court of Confirmation to confirm the Tax Enforcement Return of the Rural Municipality of Vale, No. 392. Dated at Calgary, Alberta, this 12th day of July A.D., 1916. 6-9c N. G. Van Dyke, Sec.-Treas.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Drill Hall, Calgary, Alta." will be received at this office until 4 p.m., on Tuesday, August 1, 1916, for the abovementioned Drill Hall at Calgary, Alberta.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. Leo Dorval, Resident Architect, Calgary, Caretaker of Post Office, Edmonton, Alberta, Mr. Matthews, Resident Architect Winnipeg, Man., Postmaster, Brandon, Man., and at this department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of Hon. the Minister of Public Works, equal to ten p. c. (10%) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender. NOTE—Blue prints can be obtained on application to the Department of Public Works, Ottawa, by depositing an accepted bank cheque for the sum of \$50.00 made payable to the order of the Hon. the Minister of Public Works, which will be returned if the intending bidder submit a regular bid and return the prints to the Department.

By order, R. C. DESROCHES, Secretary Department of Public Works, Ottawa, July 5, 1916. Newspapers will not be paid for this advertisement if they insert it without authority from the Department. 19-7c

Prompt and careful attention solicited ALBERTA BLOCK

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Three-60 month residence, upon acquisition of the land in such of these years. A homesteader may live within one mile of his homestead on a farm of at least 40 acres, on certain conditions. A habitable house is required where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$5.00 per acre.

Three-60 month residence in such of these years after acquiring homesteaded patent; also 40 acres of land in such of these years, culture \$5.00 per acre and a house worth \$100. The area of cultivation is subject to reduction in case of crops, surplus or any land. Live stock may be substituted for cultivation under certain conditions.

A settler who has homesteaded his homestead right may take a purchased homestead in certain districts. Price \$2.00 per acre. Three-60 month residence in such of these years, culture \$5.00 per acre and a house worth \$100. The area of cultivation is subject to reduction in case of crops, surplus or any land. Live stock may be substituted for cultivation under certain conditions.

W. W. COBB, C.M.G., Deputy of the Minister of the Interior.

Buy Your FORD Car On the GUARANTY PLAN

The National System Of Standard Credit

Buy your car on a business basis.
Let it pay for itself—ON TIME.

The idea is not new. But the CONVENIENCE and PRIVACY of the Guaranty Plan ARE new.

No mortgages to be recorded. No publicity. No red tape.

What the average family wastes each year on pleasure, would pay for a new Ford car.

With the Guaranty Plan you GET the pleasure, and you HAVE the car as an asset for many years.

Write—phone—or call. Let us explain in detail the exclusive features of the Guaranty Plan.

Ford Runabout - \$480
Ford Touring - 530
Ford Coupe - 730
Ford Sedan - 850
Ford Town Car - 1000

GOVERNMENT WILL REGULATE CONTROL OF FRUIT MARKET

With fruit abundantly grown in Canada it is surely strange that immense quantities should be imported from the United States. Yet, Bulletin No. 47, dealing with precooling, recently issued by the Dairy and Cold Storage Branch of the Department of Agriculture, Ottawa, states that "during 1913, when tons of tender fruits rotted on the ground in Ontario for want of markets, and when calamity stared the fruit grower in the face, the Dominion of Canada imported from the United States 12,149,207 pounds of peaches, 6,197,700 pounds of plums, 6,026,692 pounds of grapes and 11,354,228 pounds of pears, apricots, quinces, nectarines." It is further stated that these importations are increasing and that they largely go to the prairie provinces. This, of course, is due to the fact that in the Eastern Provinces, sufficient attention and care are not paid to the fruit in gathering, storing, packing and shipping. The object of the bulletin which can be had free on application to the Publications Branch of the Department of Agriculture at Ottawa, is to overcome this state of things. Detailed advice as to pre-cooling and refrigerating all kinds of fruits, with results of experiments at the Grimsby pre-cooling station, is given, with the rates charged for pre-cooling and storing. A second bulletin numbered 48, issued by the Branch and which like the other can be had free on application to the same source, supplies additional details of precooling investigations and contains a vast deal of practical information regarding packing, shipping and marketing. Both fruit-grower and shipper will profit by earnest study of each of these Bulletins.

SERVED HIM RIGHT, TOO!

A man who was too economical to take his home town paper sent his little boy to borrow the copy taken by his neighbor. In his haste the boy ran over a \$4 stand of bees, and in ten minutes looked like a warty summer squash. His cries reached his father, who ran to his assistance, and failing to notice a barbed wire fence, ran into that, breaking it down, cutting a handful of flesh from his anatomy and ruining a \$4 pair of pants. The old cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing the racket the wife ran, upset a four-gallon churn of rich cream into a basket of kittens, drowning the whole lot. In the hurry she dropped a \$7 set of false teeth. The baby, left alone, crawled through the spilled cream into the parlor, ruining a new \$20 carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up eleven setting hens, and the calves got out and chewed the tails off four fine shirts.

HEATH HAPPENINGS

Mr and Mrs H. Bouek of Didsbury are spending a month with their daughter Mrs G. Turnbull.

Mr F. Wilkinson, has returned to his home in Chicago after spending two weeks with his uncle Mr Wilkinson Sr.

Mr A. Lunday has returned home from a trip to Edmonton and southern points.

A very enjoyable time was spent by the neighbors at the picnic given by Mr Wilkinson on July 20th.

Mr J. Chynoweth wears a smiling face, a bouncing girl arrived at their home a few days ago.

Markets

WINNIPEG, July 31.--Winnipeg wheat closed 3/4 higher for July and 1/2 higher for October and December. Oats were 1/2 lower for July and 1/2 higher for October. Barley dropped 1/2. White flax gained 1/2 for July and October and was unchanged for November.

Minneapolis wheat was 1/2 higher for July, 1/2 higher for September and 3/4 higher for December. Chicago wheat was 1/2 up for July, 1/2 higher for September and 1/2 higher for December. The market quickly changed today from a decidedly easy one to a strong bull market. Shorter end of the market. The contract grades were not so bad, but all grades were easy. There was some legitimate buying, but most of it was speculative trade.

A fair amount of spreading went on and outside markets were good, buyers in Winnipeg. The east reports which came in were simple repetitions of those of last week. They got the crowd excitedly once the ball started rolling.

The cash demand was very poor, with the exception of the market. The contract grades were not so bad, but all grades were easy. There was some legitimate buying, but most of it was speculative trade.

INTERESTING ITEMS

Born.--To Mr. and Mrs. J. Wilkins, on Sunday July 23rd, a son.

A. Lawrence, of Chauvin was in town on Monday on business.

Mr. and Mrs. Alfred Mills were visitors to Edmonton last week end.

Special rates are being offered over the G. T. P. for Saskatoon's annual fair and exhibition.

Mrs. A. C. Armstrong is visiting at her parental home at Holden for a short holiday these days.

Mrs. C. A. Davies and children returned on Friday from a short visit to her husband at Jasper, Alta.

The wild fruits are now becoming plentiful as is evidenced from several samples which have been presented to us.

The annual picnic of the Irma U. F. A. which was held on Friday last was a huge success, and the fine weather added considerably to the enjoyment of all.

The town of Hanna, Alta. is announcing that the electric light there will be switched on in about three weeks, and we envy them this utility greatly.

All are asked to remember the U. F. A. annual picnic at the Exhibition grounds tomorrow (Thursday) not Friday as we were erroneously informed last week.

Mrs. J. McCann and family who have been visiting relatives in Moorhead, Minn. U.S.A. for the past six weeks returned home on Tuesday.

Miss Vina Doan, of Saskatoon and Miss Laura Doan, of Outlook, arrived on Sunday last to spend a few weeks' holiday with their sister Mrs. E. Reynolds.

Don't forget that the Daughters of the Empire just have to have more soap, and so, if you cannot donate the articles drop in at the Annex on Saturday with the price, and they will purchase them for forwarding to our boys.

A large number of our towns people took advantage of the demonstration of the new Fire-co range at Washburn's on Friday last, when it was shown how this stove saves about fifty per cent of fuel over any other.

Mrs. N. Fenby and the children will be leaving town on Sunday to pay a visit to relatives at Toronto, Niagara Falls and Chicago for a holiday. Of course, Norman goes along, too!

Contractors Itsted & McKay sure did a smart job for Jack Telford this week when they re-arranged the front of his business premises so as to give more light and better facilities.

Geo. Wanless was a visitor to the city for a day or so last week end.

P. D. Laird arrived home from Biggar this week.

Miss Hazel Bruncker is spending a couple of weeks vacation at Clear Lake.

The new weigh office for S.D. Mills at the corner of Queen's & Second is practically finished.

Mrs. M. Neild arrived from Edmonton last week end to accept a position with the Station Restaurant.

Miss L. M. Speers who has been visiting Mrs. E. Cork returned to her home in the city on Monday's train.

All members of the Town Band are asked to meet in the band room at 7.30 sharp on Thursday evening.

Miss J. Anderson left on Tuesday to take a short holiday with friends at Camrose.

Mrs. V. E. Graham and children will take a holiday with relatives in Minneapolis for a few weeks. They leave town on Sunday's train.

As will be seen from our Advt. columns the Battle Creek S.D. are in need of a teacher for their school in that territory.

At this time of year, when lots of the ladies are enjoying their annual vacation, our town seems to be full of grass widowers. Funny how they all seem to get to the Station restaurant to eat, though! Eaching can't be an acquisition of theirs.

So as to raise sufficient funds to strengthen their new organization the new Rebekah lodge are holding a lawn social at the residence of Mrs. N. Fenby tomorrow (Thursday) evening. The band will give several selections and refreshments will be served. All are invited.
